# FACEBOOK CHAT BOT
## Open Soft, Kshitij, 2015
## Team ID - 1133

**SOURCE CODE FILES**:

1. **chatbot.py**: This contains code for establishing a connection with the chat bot server and embeds code for message replies. The replies can be altered/modified in whatever way desired.

2. **cleverbot.py**: This contains code specific to **cleverbot.com** to establish a connection from cleverbot to the chat API for Facebook.

These 2 together comprise the complete source code for the software.

**OTHER FILES**:

1. instruction_admin.pdf: Installation instructions for the software

2. instruction_user.pdf: End user software usage instructions

3. Software and Hardware Requirements.pdf: This contains the bare minimum software and hardware requirements

4. judgement_parameters.pdf: File containing 3 elective parameters on which I want my software to be evaluated

5. objectives.pdf: File describing the objectives of the software
